

Summer Term Topic Web

Year 2 will be

Computing

Composing, photographing and editing photos of objects from our local environment, to learn how to create, store and manipulate digital content.

Writing

Creating a non-fiction text about sea creatures, and writing persuasively about keeping beaches clean.

Maths

Solving problems using all four operations, continuing to work on our mental maths strategies and learning to tell the time.

Geography

Identifying and mapping key physical and man-made features of the Sussex coastal region. Exploring what different maps tell us and how map keys work.

Science

Finding out about and describing the basic needs of plants. Growing and observing how seeds and bulbs grow into mature plants.

Living by the Seaside!

RE

Learning about prayer in Christianity and Judaism.

DT

Exploring materials, then designing, building and evaluating a product, linked to the West Pier.

PSHE

Identify the importance of belonging and feelings in relation to moving on to Year 3.

PE

Continuing to learn and play team games as well as improving our athletic skills for sports day events. Learning and improving a range of swimming strokes.
